# OIL & GAS DIRECTORY

(1953-54 Edition)

PUBLISHED BY  
C. O. PICLE and A. R. SMITH

100 PETROLEUM BUILDING - CALGARY, ALBERTA

# Get a Line on Canadian

Opportunities are big in Canada's Western oil and gas fields... but all opportunities present problems. Solving these problems, just as the same time off-shore, completely, is the job of The Canadian Bank of Commerce. More than 100 branches are located in the major cities of Western Canada. A special banker's office is staffed by men with experience in the financing problems of the oil industry.

Over 2000 miles with an office of Canadian oil and gas firms, turn to The Canadian Bank of Commerce.

*Canada's potential oil area is larger  
than the combined states of  
California, Texas,  
Oklahoma, Kansas  
and Louisiana . . .*

## The Canadian Bank of Commerce

HEAD OFFICE: TORONTO

New York San Francisco Los Angeles Seattle Portland, Ore.

More than 600 Branches across Canada

For personal and business banking services  
The Canadian Bank of Commerce  
has 100 branches  
in Canada, U.S.A., Mexico, Venezuela, Argentina, Chile, Uruguay, Brazil, Peru, Bolivia, Ecuador, Costa Rica, Panama, and the Philippines.

PUBLISHED BY A. R. SMITH & C. O. NICKLE

107 Petroleum Bldg. - Calgary, Alberta

PRINTED BY STOVEL-ADVOCATE PRESS

## FOREWORD

*Operations in Western Canada's petroleum industry are being carried out at a record-breaking rate, and it is hoped that the Canadian Oil & Gas Directory will be an aid to those firms and individuals who are making the oil and gas history for this Nation.*

*The 1953-54 edition of the directory has been enlarged to cover a broader field. Having added additional maps and revised data.*

*We have endeavored in this third edition to give a concise and statistical record of all companies, associations and individuals that are carrying out or assisting in Western Canada's oil and gas developments. With new firms continuing to enter the petroleum industry at a steady rate and developments occurring at a rate never before exceeded, it is difficult to cover the whole field thoroughly without some errors and omissions. However, it is the hope that this and future editions will provide a convenient and satisfactory reference.*

*We wish to express our thanks to those firms and individuals in the petroleum industry who have made this publication possible by their kind co-operation and support.*

## **ABASAND OILS LIMITED**

**Head Office:** 206 Richmond St. W., Toronto, Ont.  
**Capitalization:** Authorized, 4,000,000 shs.; Issued, 3,529,575 shs. NPV.

**Officers/Directors:** D. Robinson, Pres.; H. S. Dunn, Sec.; C. V. Humphreys, Treas.; Aubrey Davis, H. R. Milner, Q.C., P. A. Thomson.

**Note:** Company engaged for many years in exploration and development of oil sand areas of northern Alberta, and presently holds leases in Mildred-Ruth area. Company inactive at present.

## **ABERDEEN OILS LTD.**

**Address:** 14 Merrick Bldg., Edmonton, Alta.  
**Directors:** H. L. Wolfe, Albert Gaetz, Henry Nordheimer, W. Muechner, Dr. Morgan.

## **ACE OILS LIMITED**

**Head Office:** 4 Clarence Black, Calgary, Alta.  
Phone: 63051.

**Capitalization:** Private Company.

**Officers & Directors:** F. F. Reeve, Pres.; G. T. Wright, Vice-Pres.; (Mrs.) D. E. Rooney, Sec.-Treas.

**Oil Production:** Lloydminster, 5 wells (93 3/4 %), 1952 Prod.: 27,713 bbls.

**Acreage:** 640 acres in Alberta.

## **ACME GAS & OIL COMPANY LIMITED**

**Head Office:** 2007 - 80 King St. W., Toronto, Ont.  
**Capitalization:** Authorized, 5,000,000 shs.; Issued, 2,100,232 shs. NPV. Ontario incorp. 1929.

**Officers/Directors:** R. C. Southgate, Pres.; A. B. Stodart, Vice-Pres. & Treas.; A. H. Seguin, C. C. Cross; E. N. Johnson, Sec.

**Oil Production:** Kavanagh, one well (10%); Ontario, 3 wells; Vermilion-Lloydminster area, four wells (unspecified interest); unstated royalty interest in Texas, Kansas, Kentucky, Indiana, Mississippi and Louisiana.

**Subsidiary Company:** Barradaile Oils Ltd.

## **ACROIL PETROLEUMS LTD.**

**Head Office:** 113 Clarke Bldg., Edmonton, Alta.  
Phone: 41452.

**Capitalization:** Authorized, 4,000,000 shs.; Issued, 1,000,000 shs. NPV.

**Officers & Directors:** A. P. Collins, Pres.; Dr. H. N. C. Begg, Vice-Pres.; G. N. Ross, Mng. Dir.; M. J. O'Brien, Q.C.; L. Ayotte, J. Norbert, C. Fix, Directors.

**Natural Gas Reserve:** One capped gas well in Alberta.

**Acreage:** 13,040 acres in Alberta.

## **AD ASTRA MINERALS LTD.**

**Head Office:** 212-214 Baltzan Bldg., Edmonton, Alta. Phone: 42427.

**Capitalization:** Authorized, 4,000,000 shs. n.p.v.; Issued, 3,108,360 shs. Dominion incorporation, 1947.

**Officers & Directors:** A. M. Berry, Pres.; R. G. McPhie, Vice-Pres. & Mgr.; W. H. Boyce, C.A., Sec.-Treas.; E. D. Wright, C. Becker, C. McDannel, A. Russell, R. C. Sissons, G. R. Howsam, C.B.

**Oil Production:** Namao, 5 wells (40%). Cumulative production to Dec. 31, 1952, 32,106 bbls.

**Acreage:** Namao, 320 acres (40%); Wizard Lake-Thorsby, 800 acres plus 50% in 320 acres; Grassy Lake, 1,440 acres; Brooks, 960 acres; Hanna, Chipman, Blood Indian Reserve and Black Diamond, 3,200 acres.

**Other interests:** Groups of Uranium claims, Beaverlodge, Foster Lakes and Lac la Ronge.

## **ADVANCE OIL COMPANY LTD.**

**Head Office:** 232 Lougheed Bldg., Calgary, Alta.  
Phone: 24611.

**Controlled by:** Albertan Federated Oils Limited.

**Capitalization:** Authorized, 1,000,000 shs.; Issued, 1,000,000 shs. NPV. Dominion incorp. 1925.

**Officers & Directors:** W. H. Atkinson, J. W. Moyer, R. A. Brown, Jr., W. G. Peterson.

## **AIRLINES PETROLEUM COMPANY LTD.**

**Head Office:** 327 Alberta Corner, Calgary, Alta.

**Capitalization:** Authorized, \$20,000. Alberta incorporation, 1951.

**Officers/Directors:** E. G. Lawrence, Pres.; J. M. Kerr, Vice-Pres.; R. F. Stephenson, Sec.-Treas.

**Acreage:** St. Albert area, 1,030 acres.

## **AJAX PETROLEUMS LIMITED**

**Head Office:** Toronto, Ont.

**Branch Office:** 202 Wilson Electric Bldg., 337 - 8th Ave., W., Calgary, Alta. Phone: 61368.

**Capitalization:** Authorized, 5,000,000 shs., 50% par; Issued, 4,000,000 shs.

**Officers & Directors:** W. B. Airth, Pres. & Gen. Mgr.; H. J. Plaxton, Vice-Pres.; J. B. Adoue, Jr.; A. H. Gilmour, A. M. Starck.

**Natural Gas Production:** Morinville, 16 wells.

**Acreage:** 5,210 acres in Alberta; 29,839 acres in Saskatchewan.

**Pipelines:** Supplying town of Morinville. Pipeline to Canadian Chemical plant at Edmonton.

## ALBEDENA OILS LIMITED

**Head Office:** 231 - 8th Ave. W., Calgary, Alta.  
Phone: 25811.

**Capitalization:** Authorized, 5,000,000 shs.

**Officers & Directors:** J. F. Anderson, Pres.; R. Erickson, Vice-Pres.; W. J. Conrod, Sec.-Treas.

**Oil Production:** Leduc, 3 wells (37½%).

## ALBERCALIF PETROLEUMS LIMITED

**Head Office:** 1008, 330 Bay St., Toronto, Ont.

**Capitalization:** Authorized, 3,000,000 shs.; \$1 par; Issued, 900,000 shs. Ont. incorp., 1952.

**Officers & Directors:** S. Brooks, Pres.; R. A. Brooks, Vice-Pres.; S. A. Perry, Sec.-Treas.; H. W. Knight.

**Acreage:** Interests in approx. 40,000 acres in South Dakota.

**Other Interests:** Company owns four drilling rigs.

## ALBERCAN OIL CORPORATION

**Head Office:** 940 - 8th Ave. W., Calgary, Alta.  
Phones: 25992, 24317.

**Incorporated:** 1949 in State of Delaware, U.S.A.

**Officers & Directors:** S. P. King, Pres.; H. H. Heisler, Vice-Pres.; R. J. Richardson, Sec.-Treas.; B. W. Heath, K. R. Jordan, G. S. Mantgamer, Jr.; F. Reid, Jr.

**Acreage:** 941,060 acres in Alberta; 640,910 acres in Saskatchewan; 19,100 acres in Manitoba; 78,330 acres in other provinces or states.

## REPORTS

Substantial increase is shown in our production, oil and gas reserves and acreage. Baysel subsidiaries have continued to grow, with Trident Drilling Co. Ltd. now one of the largest contractors in Canada with fourteen large, modern rigs capable of testing any known horizon in Canada. Selbay Exploration Ltd. has increased in size and value.

The first Annual Report to Shareholders is now being distributed and a copy will be sent at your request.

Eastern Producing Division.

## Where does the money go?

At times most of us have looked at purse, wallet or bankbook and wondered: "Where **does** the money go?"

Each year we at Imperial Oil add up the company's bills to see what happened to the money we received in the previous 12 months for the gasoline, fuel oil and other products we sell. Here's where each dollar of Imperial's 1952 income went:

CRUDE OIL and other raw materials we bought, plus freight, took more than half of each dollar.

OPERATING expenses took more than 28 cents. This was the cost of searching for and producing crude oil, and of manufacturing and marketing the hundreds of products we supplied for thousands of uses. Throughout the year high quality products were made available where and when you needed them.

TAXES to provincial and federal governments took 10 cents. And this did not include gasoline tax, which—depending on where you live—took from 24 to 36 cents out of every dollar you spent for standard grade gasoline.

DIVIDENDS paid to shareholders for use of plants and equipment amounted to 4.06 cents.

TO REPLACE worn out equipment and to make sure that we can supply your needs in the future 3.42 cents was put back into the business.

**IMPERIAL OIL LIMITED**  
oil makes a country strong

# OIL & GAS PRODUCERS, EXPLORERS & DEVELOPERS

# Production & Exploration

An independent Canadian Company, actively engaged in the development of Canadian oil resources . . . Experienced geologists, engineers and land-men provide the "know-how" which enables this company to take an aggressive part in the acquisition and development of favorable acreage . . . Extensive holdings throughout Western Canada are particularly attractive from the viewpoint of planned exploration and development . . . with producing wells in six oil fields of Alberta and Saskatchewan, and gas reserves in many areas, New Superior Oils of Canada Ltd. has gained a prominent position in Western Canada's oil picture.

**Acreage:** 23,000 acres in Alberta.

# Carrying on a Proud Tradition

By A. W. Savary, P.R.O.

H. F. HERRON, Vice-President

OUT of the consuming interest of the late William Stewart Herron in gas seepages on his Turner Valley ranchlands shortly after the turn of the century has grown Western Canada's great billion-dollar oil and gas industry.

For it was his unyielding confidence and enthusiasm that resulted in successfull drilling of that first momentous well, completed as a producer in May, 1914 . . . and, throughout the early years of "boom and bust", it was his unfaltering conviction that vast resources of crude oil lay beneath Alberta's plains and foothills which drove him on with singleness of purpose toward the goal of finding them. With formation in 1925 of Okalta Oils Limited, and its steady development through the intervening decade and a half, this pioneer Alberta rancher, self-taught geologist and oil man, lived until 1939 to see many of his dreams realized. He passed on, sure in the knowledge he had built soundly for the even greater developments he foresaw so clearly in the burning gas flares along the banks of his beloved Sheep creek in the Turner Valley of the early Nineteen Hundreds.

W. S. HERRON, President

## Founder's Spirit of Determined Progress Inspires Company Today

Today his sons, Harold F. and William S. Herron, brought up and trained in the spirit and tradition of Okalta's founder, carry on the Company's interests in more than 2,000 acres of productive Turner Valley oil and gas property, and guide its continuing development of the newer fields he knew would some day bring great riches and acclaim to his chosen Province.

Reservation Converted  
To Lease With Drilling  
Program for This Year

Following extensive seismic surveys conducted last year, Okalta has converted its reservation in the Sedalia area of east central Alberta into oil and gas rights on 8,800 acres. Plans are to develop this property later this year, either with the Company's own drilling equipment and capital, or through farmout agreements that may appear attractive.

In Turner Valley, Okalta operates 13 wholly-owned producing wells and receives substantial royalties from 25 others. At Leduc, Okalta is operating 23 wholly-owned oil wells with estimated recoverable oil reserves of more than 3,000,000 barrels, and oil and gas leases on 2,320 acres. Other properties being held for development are: 4,360 acres on the Kehoe Lake structure, 440 acres at Tober, 160 acres at Del Bonito, 80 acres offsetting the Shell-Okotoks-McKee gas well near Okotoks, and 2½ sections at Pincher Creek, adjacent to the Gulf Oil gas development.

Okalta views the rich and rewarding experiences of the past with pride, and looks to the future with the same unshaken confidence which shaped its destiny.

For years, oil men all over America have used the Rocky Mountain Oil reporter for reliable reports on the most active oil areas in North America.

P.O. Box 1528  
DENVER, COLORADO

Now in its thirty-second year, Royalite Oil Company, Limited is one of Canada's largest independent exploration and production companies. Besides being substantial producers of crude oil and natural gas, Royalite now produces propane gas and raw sulphur to supply the ever increasing demand for these products.

A detailed black and white illustration of an industrial oil refinery or processing plant. It features several large cylindrical storage tanks of varying sizes, some with safety railings around their tops. A tall, vertical pipe structure stands prominently on the left. In the foreground, there is a complex network of thick, dark pipes and valves. To the right, a long, low-profile building with a gabled roof appears to be a workshop or office. The background shows a hilly landscape with sparse vegetation under a clear sky.

# OIL in Canada

## THE AUTHORITATIVE CANADIAN OIL MAGAZINE

"An advertising medium that is unequalled by any other periodical serving the oil industry in Canada today."

Edited by C. O. Nickle, M.P., OIL IN CANADA publishes weekly up-to-the-minute field and wildcat reports together with a complete listing of all wells being drilled in Western Canada. The important news service combined with reports on specific activity in various phases of the industry brings the 5,400 (net paid) subscribers, the only complete and comprehensive review pertaining to the Canadian oil industry.

This is attained by covering in specific weekly issues, such topics as economic factors affecting supply and demand, new equipment and literature, together with exploration, drilling, production, refining and marketing techniques.

They will be pleased to explain how this Company can assist Individuals, Syndicates and Companies participating in Alberto's oil development.

Our offices have the facilities to provide a complete service to owners of oil rights. These include collection of oil royalties and acting as Agent or Trustee for individuals. We are also fully qualified to act as Transfer Agent or Trustee for Syndicates and Corporations and as Agent for the distribution of dividends and royalties.

You are cordially invited to consult Mr. Shaw or Mr. Le Neveu, without obligation.

# feedlines

for Canadian Industry

A continuous stream of oil flows 1156 miles east by Inter-Provincial Pipe Line to the Lakehead . . . and, upon completion in 1953 of the 741-mile Trans-Mountain Pipe Line . . . a westward flow will feed industrial needs at the Pacific Coast. Alberta oil fields are the abundant source of economic benefits for the whole of Canada . . . supplying 96 per cent of the nation's total oil production and approximately one-third of the daily Canadian demand for petroleum products.

The  
**LOGICAL SPOT**  
for  
**INDUSTRIAL  
LOCATION**

EDMONTON is surrounded by the nation's greatest oilfields - including Leduc and Redwater.

EDMONTON is freely supplied by unlimited reserves of low-cost natural gas, ideal for industrial use and petro-chemical enterprise.

EDMONTON is geographically situated at the hub of rail and air traffic and is the recognized gateway to the riches of the NORTH.

EDMONTON is making available new industrial areas in close proximity to the business centre with city services and transportation facilities.

EDMONTON is at the centre of Canada's greatest industrial development, where chemical plants and factories are establishing close to the source of valuable raw materials for economical operation.

## **ABERNETHY (ALBERTA) LIMITED R.M.**

**Head Office:** Exominer Bldg., Calgary, Alta. Phone 64820.

**Affiliated with:** Abernethy Insurance Associates Ltd., Vancouver, B.C.

**Officers/Directors & Key Personnel:** J. S. Dovidsan, President; J. H. Moon, Mng. Dir.; R. H. Minniss, Office Mgr.; T. Joyce.

**Type of Service:** Complete Insurance Brokerage service for the oil industry.

## **ALBERTA MUD CO. LIMITED**

**Head Office:** General Petroleums Bldg., Calgary, Alta. Phone: 26636.

**Officers/Directors:** C. H. Honson, Pres.; N. G. Lacey, Vice-Pres.; J. K. Fletcher, Sec.-Treas.

**Type of Supply:** Manufacture of native clay and Bentonite Drilling Muds.

## **ALBERTA OIL TOOL COMPANY LIMITED**

**Head Office:** 103 A Street & 58th Ave., Edmonton, Alta. Phones: 36217, 34740.

**Officers, Directors & Key Personnel:** E. M. Blanchard, Pres.; C. B. Borlow, Vice-Pres.; A. C. Woodman, Sec.-Treas.; G. B. Bulgin, Machine Shop Foreman; C. G. Graham, Welding and Rig Repair Foreman.

**Controlled by or Affiliated with:** Private Company.

**Type of Supply:** Oil Tools and Drilling Equipment, Complete Machine Shop and Welding Facilities for manufacture and repair of drillstem connections and down-hole tools. Facilities for complete drilling rig overhaul including draw-works.

## **ALBERTA SURFACE SERVICES LTD.**

**Head Office:** Calgary, Alta. Phone: 27396.

**Officers/Directors:** H. E. Marcellus, Pres.

**Type of Service:** Damage adjustment & surface leasing.

## **ALBERTA WELL SERVICING CO. LTD.**

**Head Office:** 76th Ave. & 73rd St., Edmonton, Alta. Phone: 35161.

**Officers/Directors:** J. F. Langston, Pres.; George Patterson, Vice-Pres.; C. Allen Moore, Mgr.

**Type of Service:** Swabbing rigs; well pulling; work overs; repairs; completions.

## **ALCO. MACHINE WORKS LIMITED**

**Head Office:** 6915 - 104th Street, Edmonton, Alta. Phone: 35239.

**Officers/Directors & Key Personnel:** Paul Taubner, Pres.; J. Moyhew, Gen. Mgr.; K. Sturles, Shop Supt.

**Type of Service:** Complete Machine Shop Services —all types of welding.

## **ALEXANDER & MITCHELL LIMITED**

**Head Office:** 9925 - 77th Ave., Edmonton, Alta. Phone: 36265.

**Branch/Field Offices:** Lloydminster, Alta. (Phone 74). Ma-Me-O Beach, Alta. (Phone 6). Wetaskiwin (Phone 200).

**Controlled by/Affiliated with:** United Drilling Services.

**Officers/Directors:** L. L. Alexander, Pres.; A. S. Mitchell, Sec.-Treas.; W. J. Griffiths, Dir.

**Type of Service & Supply:** Drilling Fluid engineering, drilling mud and chemical supply, analysis, Lost Circulation material and cementing additives, Agents for Milwhite Co.

## **ALLIED CHEMICAL SERVICES LTD.**

(FORMERLY CHEMI-SERVE ALTA. LTD.)

**Head Office:** 940 - 10th Ave. W., Calgary, Alta. Phone: 41130.

**Field/Branch Office:** 1919 Scarth Street, Regina, Sask.

**Officers/Directors & Key Personnel:** E. G. Law, Pres.; W. R. Ripley, Vice-Pres.; C. S. Clarke, Director.

**Controlled by/Affiliated with:** Formerly Chemi-Serve (Alta.) Ltd.

**Types of Equipment/Supply:** Complete line of oil-well drilling mud chemicals.

## **ALLIS-CHALMERS RUMLEY LTD.**

(TRACTOR DIVISION)

**Officers/Directors:** W. G. Scholl, Vice-Pres. in Charge of Tractor Division; F. Mussell, Gen. Sales Mgr.; A. E. Doran, Industrial Sales Mgr.; R. F. Gority, Northwestern Division Industrial Mgr.

**Controlled by/Affiliated with:** Allis-Chalmers Mfg. Co., Milwaukee, Wisconsin.

**Types of Equipment:** Crawler Tractors (diesel); front mounted shovels, power units, motor graders, Side-Booms, Motor Scrapers, Motor Wagons and wheel tractors.

**Branches & Distributors:** Eastern Equipment Ltd., Halifax; Mussels Canada Ltd., Montreal; Rendell Tractor & Equipment Co., Vancouver; Sheridan Equipment Co., Toronto; Waterous Ltd., Edmonton and Lethbridge; Western Tractor & Equipment Co., Regina; Vulcan Machinery & Equipment Ltd., Winnipeg and Port Arthur; Calgary Branch office, J. E. Golbroith, Mgr. Phone 26978.

## **AMCO EQUIPMENT LTD.**

**Head Office:** 1306 - 11th Ave. West, Calgary, Alta. Phone: 41166.

**Branch Office:** 10515 - 105th Street, Edmonton, Alta. Phone: 24252.

## SERVICE & SUPPLY COMPANIES

**Officers/Directors:** Arnold McGrath, Pres.; J. P. Costello, Vice-Pres.; J. Redman, Sec.-Treas.; V. St. Louis, Edmonton, Alta. Sales.

**Type of Equipment:** Buda Diesel, Natural Gas, Propane and Gasoline Engines, Electric Sets, Buda Jacks.

### AMERICAN IRON AND MACHINE WORKS COMPANY

**Head Office in Canada:** 10944 - 71st Ave., Edmonton, Alta. G. W. Tucker, Representative. Phone: 36072.

**Branch Office:** 1634 - 18th Ave., Ste. 3, Calgary, Alta. L. H. Christianson, Representative.

**Type of Equipment Manufactured:** Complete line of oilfield equipment, including Rotary Tool Joints, Paraffin Bits, Tool Boxes, Tool Houses, Circulation Joints, Drill Collars, etc.

### AMERICAN NORTHLAND DRILLING COMPANY

**Head Office:** 8035 - 102nd Street, Edmonton, Alta. Phone: 38411.

**Officers/Directors:** Tom Slack.

**Type of Service:** Oilwell Servicing & work over up to 3000'.

### ANDERSON INTERNATIONAL CONTRACTORS LIMITED

**Head Office in Canada:** 10740 Jasper Ave., Edmonton, Alta. Phone: 42560.

**Officers/Directors:** R. W. Jernigan, Vice-Pres.; W. M. Aldridge, Office Mgr.; J. F. Whitlow.

**Type of Service:** Pipe Line Contractors: Big Inch Cross-country operations.

### ANDERSON WELL SERVICING CO. LTD.

**Head Office:** 7935 - 104th Street, Edmonton, Alta. Phone: 35424.

**Officers/Directors:** Frank Anderson Managing Dir.

**Type of Service/Equipment:** Oil well servicing; one truck mounted Cardwell Model L.

### R. ANGUS (ALTA.) LTD.

## TRACK-TYPE TRACTORS

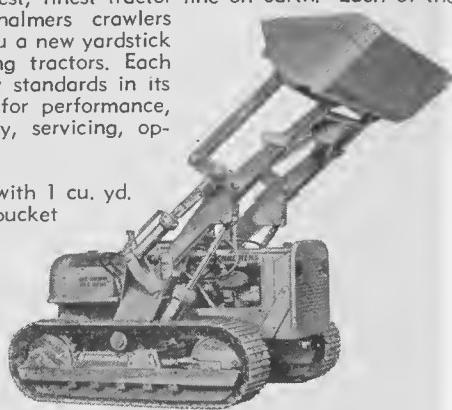

HD-20

Hydraulic torque  
converter drive

A complete line of front-end shovels  
for all four tractor models.  
(Sizes, 1 cu. yd. to 4 cu. yd.)

HD-5G with 1 cu. yd.  
bucket

## SPECIFICATIONS

MODEL	ENGINE	HORSEPOWER	WEIGHT	SPEEDS FORWARD	SPEEDS REVERSE
HD-20.....	GM 2-Cycle Diesel	175 (Net Engine)	41,000 lb.	0 to 3 and 0 to 7 mph.	0 to 5.5 mph. Standard
HD-15.....	GM 2-Cycle Diesel	109 (Drawbar)	27,850 lb.	6 Speeds to 5.8 mph.	3 Speeds to 4.5 mph.
HD-9.....	GM 2-Cycle Diesel	72 (Drawbar)	18,800 lb.	6 Speeds to 5.7 mph.	3 Speeds to 4.4 mph.
HD-5.....	GM 2-Cycle Diesel	40 (Drawbar)	44-Inch Tread—10,500 lb.	5 Speeds to 5.5 mph.	1 Speed to 2.0 mph.

## A Complete Line of Allied Equipment

### BULLDOZERS

Hydraulic and cable—straight or angled blade—designed to retain tractor balance and accessibility. Of particular interest to oil field users are the new Baker 9X and 15X No-Push-Beam-'Dozer designed especially for the Allis-Chalmers HD-9 and HD-15 Tractors. A completely new idea in 'dozer engineering, the blade is mounted directly to the main frame—no push beams needed. Tractor main frame and 'dozer are raised and lowered as a single unit. 'Dozer has 8-ft. highway wide blade — no transport permit needed.

Allis-Chalmers HD-15  
and Tractomotive  
side boom

Allis-Chalmers HD-9  
and Baker 9X  
Bulldozer

### HEAVY-DUTY SIDE BOOMS

Tractomotive side booms are available for both the Allis-Chalmers HD-20 and HD-15 Tractors. Heavy-duty in every respect, these side booms offer such advantages as drop-proof, extendable counterweights, pin-connected sectional frames, box section boom, constant mesh transmission, internal expanding brakes, convenient positive controls. Side boom lifting capacity —HD-20, 124,000 lb. at 4 ft. overhang; HD-15, 77,500 lb. at 4 ft. overhang.

PLUS

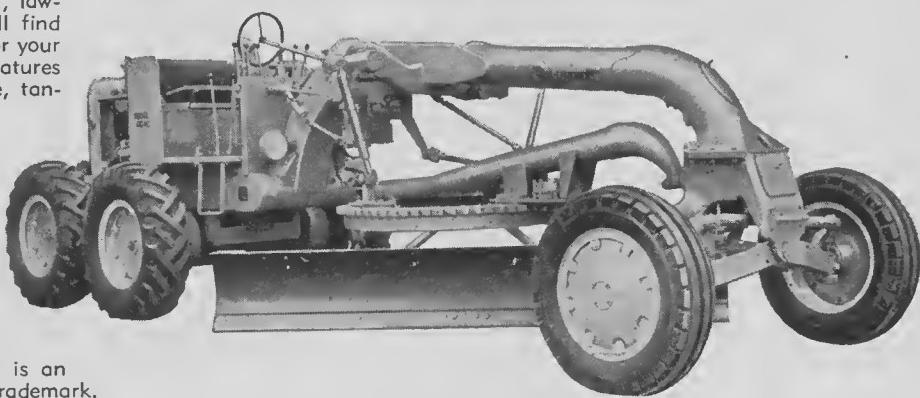

WINCHES, P.C. UNITS, SPECIAL ACCESSORIES

# TO FIT YOUR NEEDS

## MOTOR GRADERS

For building and maintaining haul roads, tank farm lands, parking lots and yards. In the complete line of five Allis-Chalmers motor graders from the big, new powerful AD-40 to the efficient, low-cost Model D, you will find a machine just right for your operations. Design features such as tubular frame, tandem drive and ROLL-AWAY moldboard give you plus performance that means more work done in less time.

Model AD-40

ROLL-AWAY is an  
Allis-Chalmers trademark.

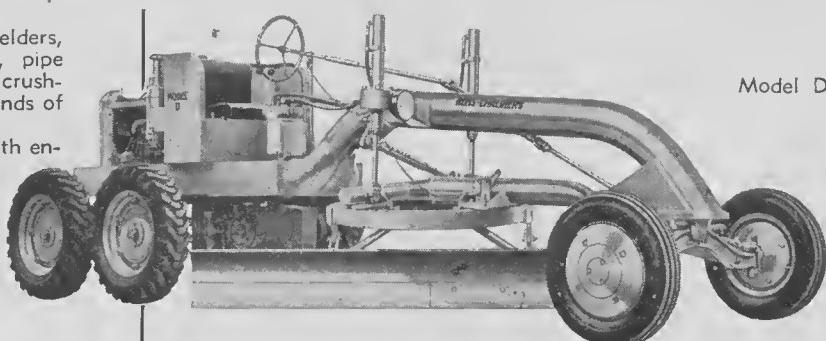

### SPECIFICATIONS

MODEL	ENGINE	BRAKE HP.	WEIGHT	SPEEDS FORWARD	SPEEDS REVERSE
AD-40.....	GM 2-Cycle Diesel	104	23,000 lb.	6 Speeds—to 16.6 mph.	3 Speeds—to 6.1 mph.
AD-30.....	GM 2-Cycle Diesel	78	22,700 lb.	6 Speeds—to 16.6 mph.	3 Speeds—to 6.1 mph.
BD-3.....	GM 2-Cycle Diesel	78	19,042 lb.	6 Speeds—to 15.6 mph.	3 Speeds—to 5.7 mph.
BD-2.....	GM 2-Cycle Diesel	50.S	17,772 lb.	6 Speeds—to 14.7 mph.	3 Speeds—to 5.4 mph.
.....	A-C Gasoline	40	8,800 lb.	4 Speeds—to 25.6 mph.	1 Speed—to 3.5 mph.

### ENGINES

for powering pumps, winches, welders, drills, compressors, generators, pipe cleaners and straighteners, rock crushers, elevators and hoists—all kinds of oil field equipment.

Production-line built along with engines by the thousands for tough tractor service, you can rely on A-C engines for strong, dependable performance. Operate on gasoline, low-grade fuel, distillate, butane, natural gas.

Model D

# It takes more than EQUIPMENT to build a PIPELINE

**"Big Inch" pipelining is one construction job  
that really separates the "men" from the "boys".**

The finest fleet of equipment in the industry—and Anderson International has it—is not enough. It takes men who have been in the industry from the beginning—men who helped coin the phrase "big inch"—men with experience in laying pipe over all kinds of country and under all kinds of conditions.

That's one of the reasons why Inter-provincial Pipe Line selected Anderson International for the 135-mile loop through Manitoba and Saskatchewan—just one of our 1953 contracts totalling in excess of \$3,000,000.

R. W. JERNIGAN

R. W. Jernigan, vice-president of Anderson International Contractors Limited, was in on the first major pipelining job—the "Big and Little Inch", built by the U.S. Government in 1942 from Texas to the Eastern seaboard. His company, Anderson Bros., of Houston, Texas, was one of the eleven contractors on the job, and Dick Jernigan was Carl Anderson's right-hand man. During the course of his company's growth into the largest pipeline contractors in the world, Dick has served it in practically every capacity.

# Blanketing the needs of Alberta fields

**Canada's best known emblem in oil and gas processing equipment**

A home source of supply . . . that's what Black, Sivalls & Bryson, Ltd., means to the Canadian oil industry. We've been a part of the Alberta oil landscape since 1930. For processing equipment designed to do a job in Canada turn to BS&B. The BS&B emblem appears throughout the "oil country": it reads EFFICIENCY AND RELIABILITY. The equipment on which you see it backs up these words with performance.

## **BS&B Equipment that's made a name for itself . . . profits for operators**

Bolted Steel Tanks . . . Welded Steel Tanks . . . Wood Tanks . . . Oil and Gas Separators . . . Free Water Knockouts . . . Low Temperature Separation Units . . . Stabilizers . . . Heaters . . . Emulsion Treaters . . . Gas Dehydrators . . . Gas Desulfurizers . . . Chemical Feeders . . . Walkways and Stairways . . . Automatic Control Equipment . . . Safety Heads . . . Special Fabrication.

# EQUIPMENT for the OIL INDUSTRY

## Heavy Duty Reciprocating Compressors

for compressing air, ammonia and all other gases. Direct-connected gas engine, oil engine, steam or electric drive for all pressures. Small compressors for operating controls. Portable compressors for construction and maintenance work.

## Turbo-Blowers

for catalytic cracking units and other refinery services where centrifugal compressors offer the best solution to the problem. Single and multi-stage units. Sizes up to 14,500 H.P.

## Cameron Centrifugal Pumps

for pipe line, refinery and transfer service — single and multi-stage types — pumps for high temperatures and high pressures — pumps for all liquids. All types of drive.

## Vacuum Equipment

Surface, Barometric and Jet Condensers — Steam Jet Water Vapour Refrigerating Units — Steam Jet Vacuum Pumps and a complete line of Reciprocating Dry Vacuum Pumps for all types of drive.

# GLOBE Oil Tool Company

JUNK RECOVERED FASTER — AT LESS COST!

—with the GLOBE patented JUNK CATCHER.

You can't eliminate fishing jobs. But you can make them less costly by employing a GLOBE Junk Catcher. Large capacity barrel—extra-large diameter and opening through catchers—plus cleverly designed, upward-folding catcher dogs—often make 100% recovery possible in one run. It DRILLS . . . REAMS AS IT DIGS . . . RECOVERS EVERYTHING IN THE HOLE and brings up a full load every trip! Eastman can deliver a Globe Junk Catcher to your rig—ready to run and eliminate costly delay.

DIG FASTER — ALL THE WAY!  
—with GLOBE patented 2-CUTTER GEOPHYSICAL BITS.

Larger bearings! Bigger cutters! Wide-spaced, intermeshing teeth, self-cleaning even in the stickiest formations! That is why these rugged, powerful bits stay on bottom hour after hour, digging fast, straight, full-gauge hole regardless of conditions. Write for full details of the all-size range.

# When You Want The Job Done\*!

\*

If it calls for the talents of a co-ordinated engineering and construction organization . . . it's a job for Mannix. Their attitude towards the time factor results in objective planning—backed by skills, experience and machinery to handle every phase of any task. In the pipe-laying field, for instance, Mannix have an enviable record of projects completed on or ahead of schedule. Depend on Mannix to do the job—to a successful finish.

**YOU'LL  
MAKE  
HOLE  
FASTER  
CHEAPER...**

*with* "CATERPILLAR" DIESEL *workpower!*

**Do your drilling needs call for a light, high H.P. Power Unit?**

The bit digs faster, cheaper, deeper . . . when there's a "Caterpillar"-built Diesel D337 Twin Power Unit on the rig. Here is a Compact, portable power-package that provides a maximum of 400-h.p., or 320-h.p. in smooth, continuous performance. Here is built-in stamina for thousands of profitable working hours . . . conservative power rating to handle endless strings of drill pipe without engine strain. Sure all-weather starting is guaranteed by an independent 2-cylinder gasoline starting engine on each unit. And the foolproof, "Caterpillar"-designed economy fuel system, built to handle a wide range of non-premium fuels, is just another of the job-proven advantages that add up to reliable day-in and day-out power output at low overall cost. Backed, of course, by readily available "Caterpillar" field service.

- Available for torque converter or straight drive
- Air clutches and mechanical clutches available
- Ample servicing room between engines
- Built from readily-available standard parts

Find out for yourself how "Caterpillar" Diesel work-power can send production up — and operating costs down!

Clip and mail this coupon today . . .

Advertising Manager,  
Union Tractor & Equipment Co. Ltd.,  
830 Ninth Avenue West,  
Calgary, Alberta.

I am interested in the Caterpillar D337 Twin for Oilfield operations. Please have representative call.

**DU PONT  
SEISMOGRAPH PHOTO  
RECORDING PAPER      ASSURES  
BETTER RECORDS**

*...produces sharper  
black-and-white graphs*

MADE TO WITHSTAND the tough and widely varying conditions encountered by oil prospecting crews, Du Pont Seismograph Photo Recording Paper is a fast, easy-processing paper . . . produces superior seismograms that can be interpreted quickly and accurately.

Seismograph Paper has high contrast. Its wide latitude permits processing at temperatures up to 100°F. (38°C.) without fogging or staining. It takes both ink and pencil markings.

Why not make your seismic recording work easier . . . more accurate? For better, clearer records, try Du Pont Seismograph Paper on your next prospecting job. It's available in rolls of 100- and 200-foot lengths in a wide variety of widths. For complete information, write Canadian Industries Limited, P.O. Box 10, Montreal, or your nearest authorized dealer.

New lab and research facilities have resulted in an even smoother, faster-cutting Appleby bit . . . at a lower price!

#### **FEWER COSTLY FISHING JOBS . . .**

Make hole faster and cheaper with the Appleby Rock Bit. Radical improvements in design mean even greater time and money savings in a bit that has been job-proven in the toughest digging in the world.

INCREASED BALL-BEARING SURFACE results in decreased torque, fewer fishing jobs. High quality materials and closely controlled heat treatment during manufacture ensure maximum tensile strength and hardness. Precision machining imparts the clean, functional eye-appeal which tells the practised eye how the Appleby can—and does—caal faster in the hole . . . how it will last langer, do a better job.

HARD OR SHALE FORMATION  
4 $\frac{1}{4}$ -in. Tri-Cone, Full Hole or Jet  
4 $\frac{1}{2}$ -in. Tri-Cone, Full Hole or Jet  
4 $\frac{1}{4}$ -in. Tri-Cone, Full Hole or Jet

SHALE FORMATION ONLY  
4 $\frac{1}{4}$ -in. Two-Cone, Full Hole  
4 $\frac{1}{2}$ -in. Two-Cone, Full Hole  
4 $\frac{1}{4}$ -in. Two-Cone, Full Hole

Either of these Conodion Distributors will gladly orrange a field demonstration on your own ground—at your own convenience—and without obligation.

#### **EXTRA Ball-Bearing Surface . . .**

—means decreased torque, more hole for less money.

Appleby Rock Bits (Tri-Cone) save time even where gravel formation is encountered.

## CFD-1 Holemaster

### SPEEDS SHOT HOLE DRILLING IN WESTERN CANADA

"CFD-1" is the first completely engineered hydraulic chain feed drill offered to the oil industry in Western Canada. Specially designed for fast shot hole drilling with fewer controls conveniently grouped for safe and speedy operation.

Failing "CFD-1" is a self-contained unit, requiring a minimum of auxiliary equipment for its operation. Drill is simply designed with no complicated mechanism. Ball and roller bearings throughout.

## THE SEARCH FOR OIL MEANS . . .

# Opportunity

With less than 5% of its favourable sedimentary area yet fully explored, Western Canada's proven oil reserves already stand at over 1 3/4 billion barrels.

What does the unexplored 95% of Western Canada's potential oil lands hold?

**It holds tremendous opportunities not only for those actively engaged in the search for oil but also for the investing public.**

As underwriters of Canadian oil securities our objective is to help bridge the gap between responsible groups requiring funds in the unending search for oil and those who have and are willing to risk a portion of their funds for such purposes.

WE INVITE YOUR  
ENQUIRIES.

# **experience counts in the oil fields!**

**Just as you need an experienced crew to tap a remote oil reservoir, so it's important for an experienced bank to handle your financial affairs.**

Imperial Bank has been associated with the oil industry since its earliest days. Our bank managers have an intimate understanding of the oilman's needs and problems, and are well qualified to serve them.

Our special representative to the oil industry, Mr. A. S. de Rosenroll, Manager of the Calgary Main Branch is always at your service. There are also three other branches in Calgary, seven in Edmonton and over fifty others throughout the Provinces of Alberta and Saskatchewan, with up-to-date facilities to help you.

## Petroleum Associations and Clubs

### Alberta Landmen's Association

#### EXECUTIVE

President..... D. M. McDONALD  
(Canadian Superior Oil)  
Vice-President..... W. D. CLARK  
(Cities Service Petroleum)  
Secretary-Treasurer..... L. C. SMITH  
(Albermont Petroleums Ltd.)

#### DIRECTORS

Jim Heath (Britalta Petroleums Limited)  
Don McLeod (British American Oil Company)  
Stan Murdock (Marigold Oils Limited)  
Norris Worth (Canadian Gulf Oil Company)

#### MEMBERS

Albercan Oil Corporation (Cy Kempston)  
Albermont Petroleums Limited (John Hunter, Larry Smith)  
Amerada Petroleum Corporation (Ken Reed, C. J. Gulless)  
Amurex Oil Development Company (A. F. Wynn, E. T. Hall)  
Anglo American Exploration Ltd. (Jack Barclay, Bill Wilkinson)  
Anglo Canadian Oil Company Limited (Tom Hicks, W. G. Tucker)  
The Bay Petroleum Corporation (W. T. Bostwick)  
Blue Crown Petroleums Ltd. (Dave Clapperton)  
Britalta Petroleums Limited (J. W. Heath)  
The British American Oil Company Limited (Don McLeod, Ted Tatham)  
Canadian Oil & Gas Reserves Ltd. (Len Farmer)  
Calmont Oils Limited (D. C. Ritchie)  
California Standard Company Ltd. (Louis Lebel, Bill Gross, C. E. Bakoney, Tom Dougall, Ray Mahaffey, S. J. Karn)  
Canada-Cities Service Petroleum Corporation (Bill Clark, Art Bishop)  
Canadian Delhi Oil Limited (Syl McKinnon)  
Canadian Fina Oil Limited (Jack Brown)  
Canadian Gulf Oil Company (Larry Diamond, Mike Kasian, Danny Spittal, Norris Worth)  
Canadian Superior Oil of California Ltd. (Bud McDonald, R. B. Lawson)  
The Catawba Corporation (Don Patterson)  
Canadian Decalta Gas and Oils Limited (Al Ross)  
Cordillera Petroleums of Canada Limited (Allen H. Todd)  
Deep Rock Oil Corporation (M. R. Reston)  
Dome Exploration (Western) Ltd. (Bernie Kelly)  
Federated Petroleums Ltd. (R. E. Humphries, K. R. Wadsworth)

Great Plains Development Co. of Canada Ltd. (J. M. Nesbitt, Ernie Crough)  
Home Oil Company Limited (Ken Nash)  
Hudson's Bay Oil & Gas Company Limited (Arch Crews, Ed Noval)  
Husky Oil & Refining Ltd. (R. G. P. McLelland, J. C. MacPhee, Harlow E. Way)  
Imperial Oil Limited (Ewing Smith, Rex Dawson, Gus Hobbs, H. W. Hewitt, Al Milner, L. M. McLelland)  
Marigold Oils Limited (Stan Murdock)  
New Superior Oils of Canada Limited (J. Jackson, Morley Biswanger)  
The Ohio Oil Company (Robert Grant)  
Osler, Hammond & Nanton Limited (Don McLandress)  
Pacific Petroleums Ltd. (A. E. Falconer, Greg White)  
Petcal Limited (Bruce Watson)  
Phillips Petroleum Company (Hugh Morrison)  
Richfield Oil Corporation (Bill Mugler)  
Rio Prado Consolidated Oils Limited (K. P. Jensen)  
Royalite Oil Company Limited (Murray Angus-Smith, G. C. Grainger, T. R. McLoy)  
Seaboard Oil Company of Delaware (Don Dunfee, George Chadburn)  
Selby Exploration Ltd. (Pete Meyers)  
Shell Oil Company of Canada (Jim Herringer, Jack Drager)  
Sinclair Canada Oil Company (Elmo Moore)  
Socony-Vacuum Exploration Company (J. Jones, Geo. F. Maynard, W. A. Work, R. M. Ross)  
Somerset Oils Ltd. (Bill Smith)  
Stanolind Oil and Gas Company (Willard Longshore, Norm Bartley, M. J. Hearst, M. J. Cush)  
Sun Oil Company (Ed Gilbert, Dick Ostrosser, J. D. White, D. Cran, S. C. Curtin)  
Texaco Exploration Company (Bob Galbraith, R. J. Elias)  
Trinidad Leaseholds (Canada) Limited (C. D. Lester)  
Union Oil Company of California (W. P. Taylor, Walt Heathman, Doug Leitch, Terrance Flanagan)  
Western Leaseholds Ltd. (Ted Harris)  
Yankee-Princess Oils Limited (Garry McKay)

## SURVEY OF ACTIVE ROTARY RIGS IN WESTERN CANADA

The following chart shows the current rigs operating in the four western provinces. Included in the summary are rigs at active wells and those that are moving to well sites. Data as of May, 1953.

KEY: W—Number rigs operating at wildcat and extension wells.

F—Number rigs operating at field development wells. T—Total rigs operating.

Contractor:	Alberto		Saskatche-		British		Total Rigs

# Growth of Geophysical Activity in Western Canada

(The following chart prepared by the Petroleum Exploration Digest, shows months during past 4½ years when activity was at a peak for the geophysical contractors).

NOTE: S—Number seismographs in field; G—Number gravimeters in field; M—Number magnetometers in field.

Date	S	G	M	Total Crews
November, 1949	81	28	1	110
July, 1950	106	15	3	124
October, 1951	132	18	2	152
November, 1952	166	15	4	185
March, 1953	163	10	—	173

NOTE: Prior to the 1947 Leduc discovery, in 1945-46, there were 15 geophysical crews operating in Western Canada. In late 1947 there were 22 crews at work. During 1948 the greatest number of geophysical parties operating at any one time was 65.

## WESTERN CANADA — ONE OF THE HOTTEST OIL AND GAS PROSPECTING REGIONS ON EARTH

Without going into lengthy details of history, the story is ably told by a few comparisons between the Western Canadian oil scenes of 1946 and 1953. Data includes Alberta, Saskatchewan, British Columbia, Manitoba and the Northwest Territories.

	1946	1952	1953*
(1) Lands under lease or reservation and being actively explored	20 million acres	180 million acres	200 million acres
(2) Annual spending — Exploratory, Development, Refinery and Pipeline building	\$12,000,000	\$310,000,000	\$400,000,000
(3) Number of Drilling Rigs (peak)	19	253	260
(4) Number of geophysical survey parties for oil and gas structures (at peak)	11	183	190
(5) Number of well completions	200	2,400	2,800
(6) Proved oil and natural gasoline reserves	70 million barrels	2,000 million barrels	2,500 million barrels
(7) Proved gas reserves	1,500 billion cubic feet	over 10,500 billion cubic feet	15,000 billion cubic feet
(8) Oil potential—the maximum volume of oil that could be produced efficiently if transportation to markets was available	19,000 bbls. daily	300,000 bbls. daily	350,000 bbls. daily
(9) Actual oil production	19,000 bbls. daily	168,350 bbls. daily	225,000 bbls. daily

The extent of relative exploratory drilling in Canada is still but 5% of that in U.S.A.

In other words 20 times as much Canadian exploratory drilling operations can be done in every square mile to reach the intensity of the United States operations. The U.S.A. has by no means reached its maximum.

\* Estimated.

## CRUDE OIL & NATURAL GASOLINE PRODUCTION— WESTERN CANADA—CUMULATIVE TO MARCH 31ST, 1953

(All Figures in Barrels)

Province	February	March	March Daily Aver.	No. Prod. Wells	3 Mths. 1953	Cumulative
ALBERTA	4,521,597	4,748,685	153,183	3,535	14,368,790	276,244,122
SASKATCHEWAN	220,459	218,670	7,054	358	613,998	6,925,457

# Estimated Proved Reserves of Crude Oil and Liquid Petroleum Gases in Western Canada

(COMPILED BY THE CANADIAN PETROLEUM ASSOCIATION)

	Proved Reserves as of December 31, 1951 (1)	Changes in Proved Reserves due to Extensions (New Crude Oil) and Revisions During 1952 (2)	Proved Reserves Discovered in New Fields and in Old Fields in 1952** (3)	Proved Reserves as of December 31, 1952 (Columns 1, 2 & 3 less 1952 Production (4)	Changes in Reserves During 1952 (Column 4 less Column 1) (5)
Alberta	1,328,000,000	57,842,000	198,914,000	1,526,389,000	198,389,000
Saskatchewan	21,000,000	3,125,000	101,822,000	124,247,000	103,247,000
Manitoba	500,000	—	1,725,000	2,106,000	1,606,000
Northwest Territories	27,100,000	(—) 19,000	—	26,767,000	(—) 333,000
Total Western Canada	1,376,600,000	60,948,000	302,461,000	1,679,509,000	302,909,000
Total Liquid Petroleum Gas in Western Canada (all in Alberta)	11,348,000	39,675,000	14,970,000	65,374,000	54,026,000
TOTAL Liquid Hydrocarbons in Western Canada	1,387,948,000	100,623,000	317,431,000	1,744,883,000	356,935,000

(All above figures are in barrels, equivalent to 35 Imperial gallons)

\* Only a limited area is assigned to each new discovery even though the committee on crude oil reserves of the Canadian Petroleum Association may believe that eventually a much larger area will produce, because in this report the committee is concerned only with actually proved reserves. Hence, figures in this column may be considered minimum figures.

## COMPARATIVE SUMMARY OF ACREAGE HELD UNDER CROWN LEASES AND RESERVATIONS OF PETROLEUM AND NATURAL GAS RIGHTS AND NATURAL GAS LICENSES IN ALBERTA

	March 31/47	March 31/48	March 31/49	March 31/50
